

HERCULES

GROUP OF COMPANIES

Lock out Tag out (T-500)

Program Overview

This program will provide students with the fundamental knowledge of locking out equipment so they can safely service, maintain, and inspect equipment. This program has been developed in accordance with the local regulations and industry standards.

Training Objectives

Upon completion of the program students will be able to:

- Identify the different energy sources
- Identify different types of energy
- Demonstrate knowledge of local regulations
- Demonstrate proper application of various Lock out Tag out devices
- Demonstrate shutdown and isolation procedures

Program Content

- Regulations review
- Review company's Lock out Tag out procedures and policies
- Identification of hazards
- Lock out Tag out procedure
- Demonstration of different LOTO devices

Format

The program is a combination of theory and practical exercises. Students are evaluated by means of a written examination. A certificate of completion will be issued which aids in addressing the various legislative requirements placed upon employers to ensure their employees are competent.

Duration

4 hours

Location

The standard program is held at our Head Office and Manufacturing Hub based in Dartmouth, Nova Scotia. However, we are able to utilize our other Hercules locations across the country, or hold the training at your facility.
