

HERCULES

GROUP OF COMPANIES

WHMIS 2015 With GHS

Program Overview

This program will provide students with the fundamental knowledge of working with controlled goods in the workplace. This program is in accordance with local regulations, industry standards and manufacturer's recommendations.

Training Objectives

Upon completion of the program students will be able to:

- Identify hazards related to controlled goods
- Identify hazard symbols
- Demonstrate understanding of the content of SDS's
- Demonstrate knowledge of how to obtain more information about the product they are using
- Demonstrate an understanding of the proper use of required personal protective equipment
- Demonstrate understanding of employee rights in the workplace and how this relates to the use of controlled products

Program Content

- Overview of changes WHMIS 2015 with GHS
- Review of hazard symbols
- Review of the content of SDS's
- Hazard assessments
- Review of regulations pertaining to WHMIS 2015 and controlled products in the workplace

Format

The program is a combination of theory and practical exercises. Students are evaluated by means of a written examination. A certificate of completion will be issued which aids in addressing the various legislative requirements placed upon employers to ensure their employees are competent.

Duration

4 hours

Location

The standard program is held at our Head Office and Manufacturing Hub based in Dartmouth, Nova Scotia. However, we are able to utilize our other Hercules locations across the country, or hold the training at your facility.
