## TRAINING ACADEMY

### Power Operated Elevated Work Platform

#### Overview

This program will provide students with the fundamental knowledge and practical skills of operating scissor lifts and/or boom type aerial platforms. This program meets and exceeds the local regulations and industry standards.

#### Prerequisites

Students must hold a current fall protection certificate.

#### Content

- Regulations
- Hazard identification
- Pre-use inspections
- Operating principles
- Review of self-rescue tools
- Rescue plans

#### Format

The program is a combination of theory and practical training. Students are evaluated by means of a written test and a practical evaluation on the equipment. Upon successful completion of the program, a certificate will be issued.

#### Duration

1 day

#### Location

Training is delivered at the Hercules Training Academy or can also be delivered on-site.

#### Required PPE

CSA approved safety boots, safety glasses, hard hat, fall arrest harness and lanyard

**Note: Please provide selected equipment for the practical training when delivered on-site.**
