TRAINING ACADEMY

Scaffolding Safety

Overview

This program is designed to assist the participant in reaching the objective of obtaining a thorough knowledge of the hazards associated with the erection and dismantling of scaffolds.

Content

- Regulations and Standards specific to System Scaffolding
- Components of System Scaffolding
- Parts Inspection
- Erection/Dismantling Planning
- Guys, Ties, and Braces
- Fall Protection
- General Scaffold Safety
- Access and Platforms
- Erection and Dismantling procedures

Format

The program is a combination of theory and practical training. Students are evaluated by means of a written and practical evaluation. Upon successful completion of the program, a certificate will be issued.

Certification Validity

Training is valid for three (3) years as per Provincial Legislation Requirements.

Duration

Approximately 8 hours. This may vary based on class size.

Location

Training is delivered at the Hercules Training Academy in Dartmouth, NS. However, we are able to utilize our other Hercules locations across the country, or hold the training at your facility.

PPE Required

CSA approved safety boots, harnesses and lanyards
Safety Glasses
Hard Hat
